Career Centre also refined its communications to promote all news with students with our Weekly Updates.

Instead of multiple promotion emails, all updated news listed unto the Job Portal from week would be **consolidated into a single email** and sent at 6:00pm, every Friday.

Aside from the additional job postings, the email included recruitment talks, speed-networking, online Information Days, online seminars, career-related competitions and outreach.

Signature jobs and events will be shared in separate emails so students do not miss what is important for them.

## Career Training

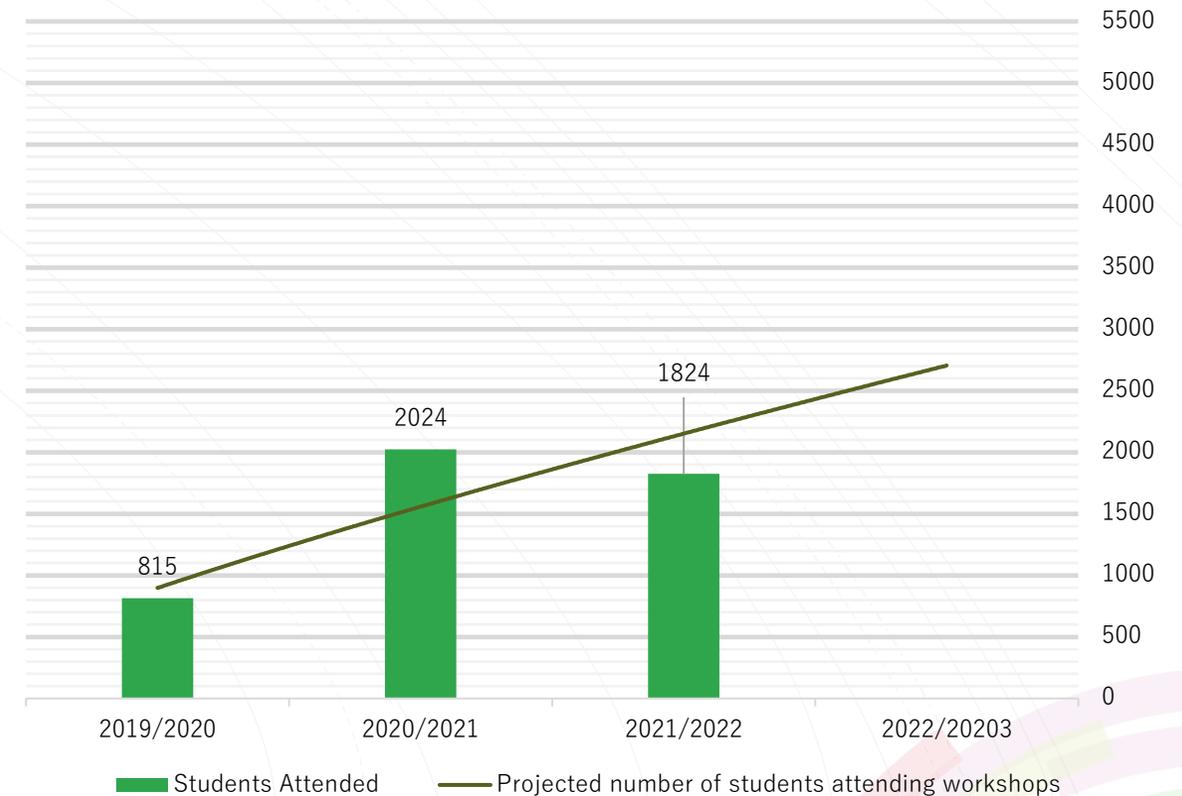

### Total Workshops Provided

(2019/2020 - 2021/2022)

### Total Students Attended

(2019/2020 - 2021/2022)

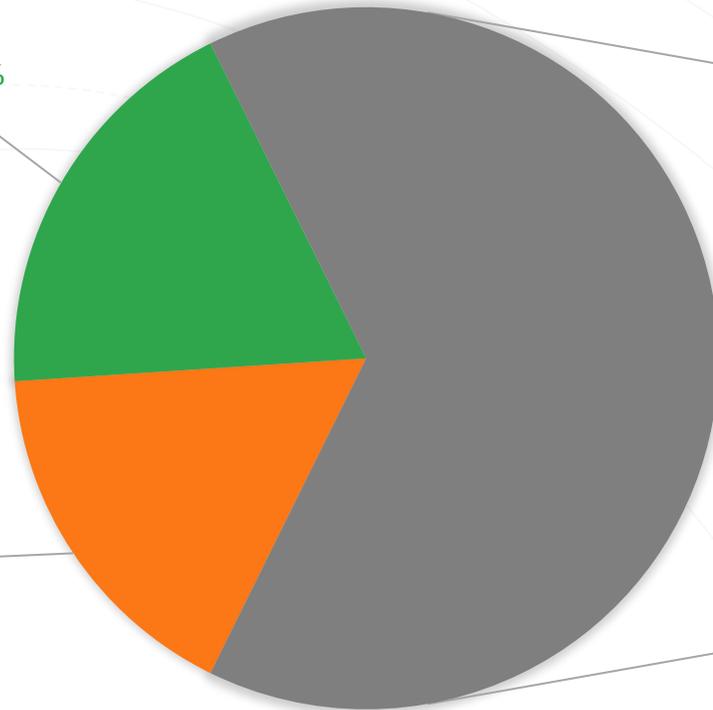

There is a **15.65% and 9.88% decrease** in the number of training workshops and the number of students served respectively:

- three months' suspension of face-to-face classes in early 2022, and the low attendance rate of College Life and You (59%) classes
- Career Center has been lacking 33.3% manpower from August 2021 – February 2022
- With the resumption of face-to-face classes and relaxing of the pandemic, both numbers are **expected to grow**.

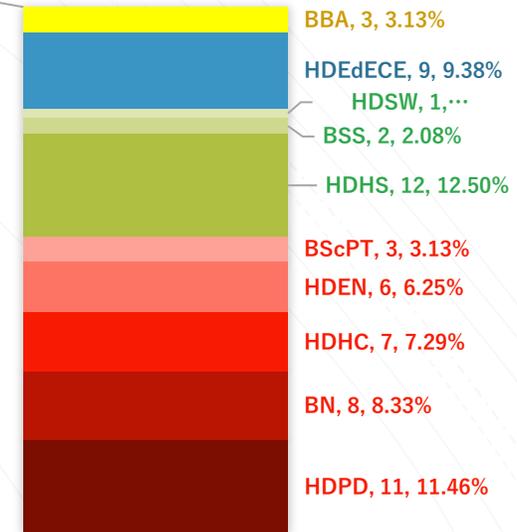

**TYPES OF WORKSHOPS**

College Life and You, 18, 18.75%

Open Class, 16, 16.67%

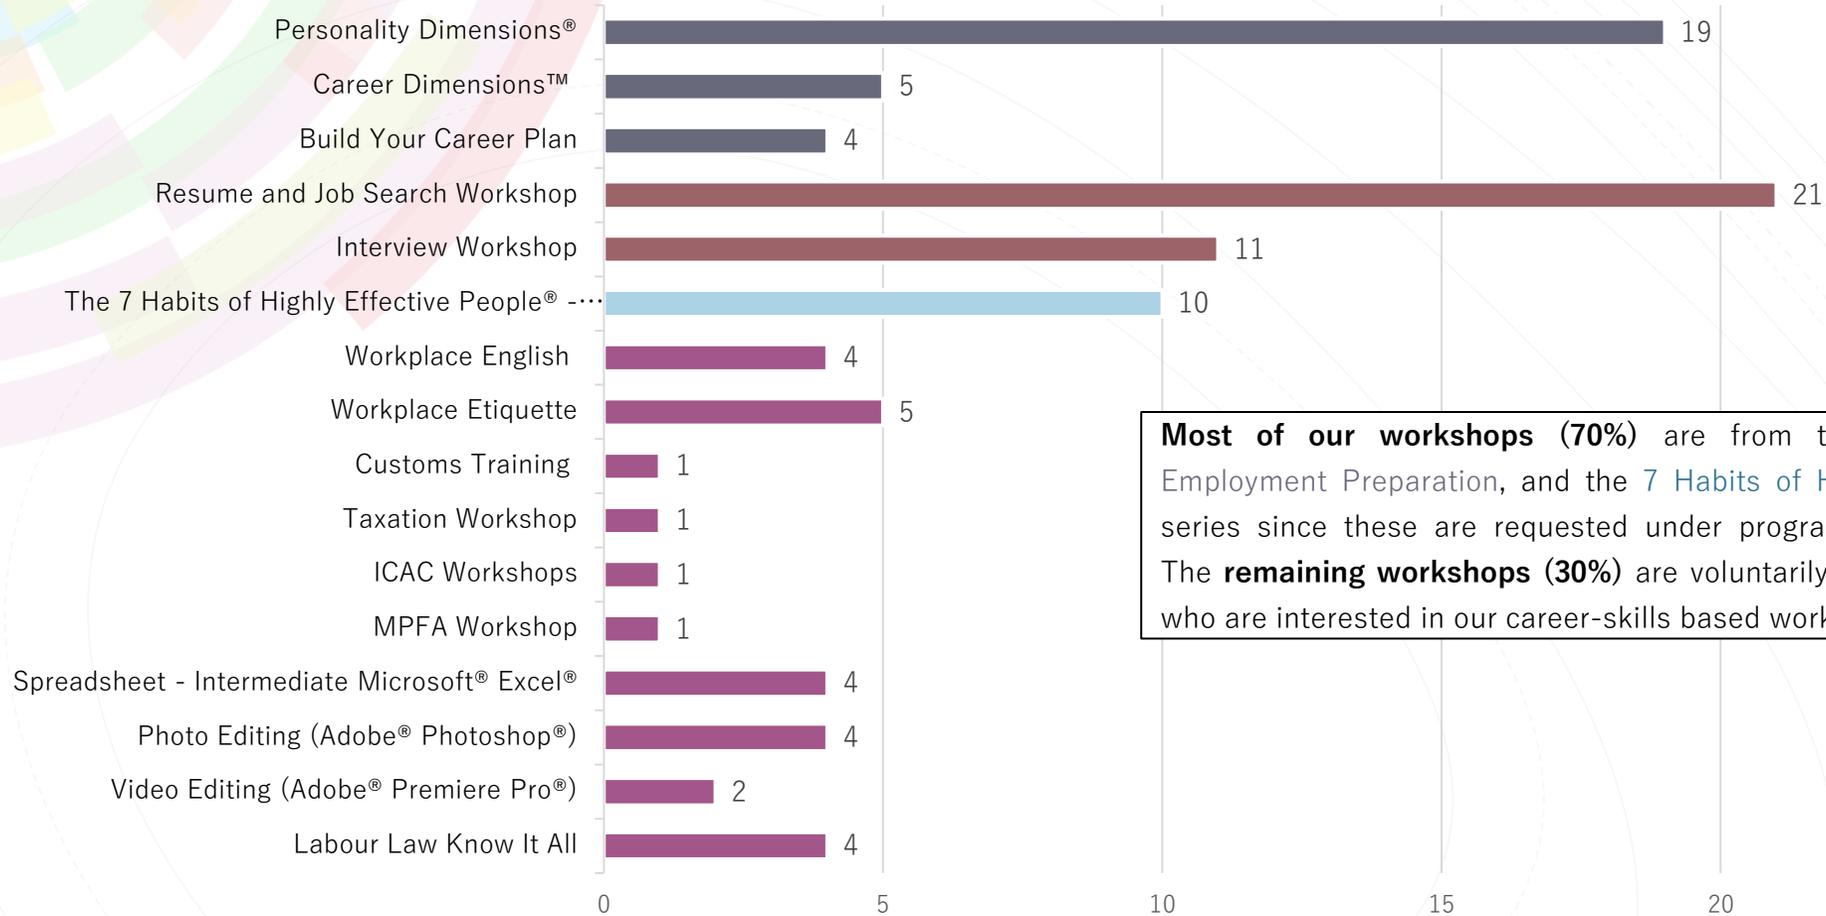

Programme Classes, 62, 54.58%

54.58% of career training workshops were Programme Classes (requested on behalf of a school or department):

- Growing interest and participation from academic staff
- School of Computing and Information Sciences, the Department of Design, and the Department of General Education and Languages students also participated in CLU or Open classes

## Distribution of Workshops

**Most of our workshops (70%)** are from the Career Exploration, Employment Preparation, and the 7 Habits of Highly Effective People® series since these are requested under programme classes and CLU. The **remaining workshops (30%)** are voluntarily enrolled in by students who are interested in our career-skills based workshops.

# Career Coaching

addressing development needs

# Career Coaching

Career Centre holds career coaching for students to identify their **short-term** and **long-term** career goals. Our **career-and-life planning approach** guides students to independently **seek their own career pathways**.

Some students found career direction through training program, "**Build Your Career Plan**," and with fun coaching sessions. The lack of certified career coaches however led to limitations in the provision of coaching. Together with a 3-month lockdown, an 18% drop in career coaching hours was recorded.

Career Centre covers four different advisory services that assist in our students' career needs. All our services are conducted by certified and trained career advisors that aim for students to actualise the different pathways that are available according to their needs, values, and skills.

## Resume Review

Get personalised feedback and enhance your resume. A well-made resume increases your chances for an interview!

## Mock Interview

Prepare your self-introduction, train your communication skills, and improve your confidence for your future interviews!

## Application Check

Seek professional advice in filling out online and offline applications, and have your supplementary documents be checked by our advisors!

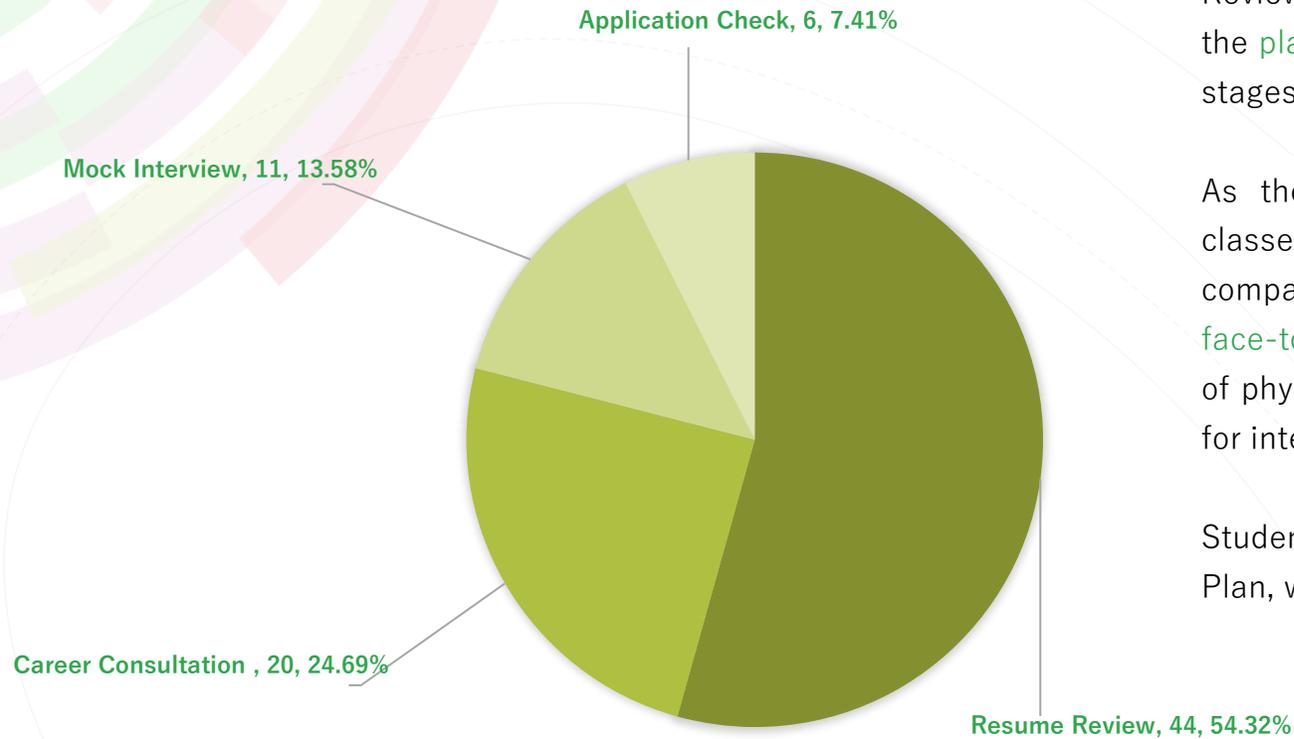

## Career Consultation

Chat with our career advisors to understand yourself, and what is available for you. There's a world of options for you to explore!

# DISTRIBUTION OF COACHING SERVICES

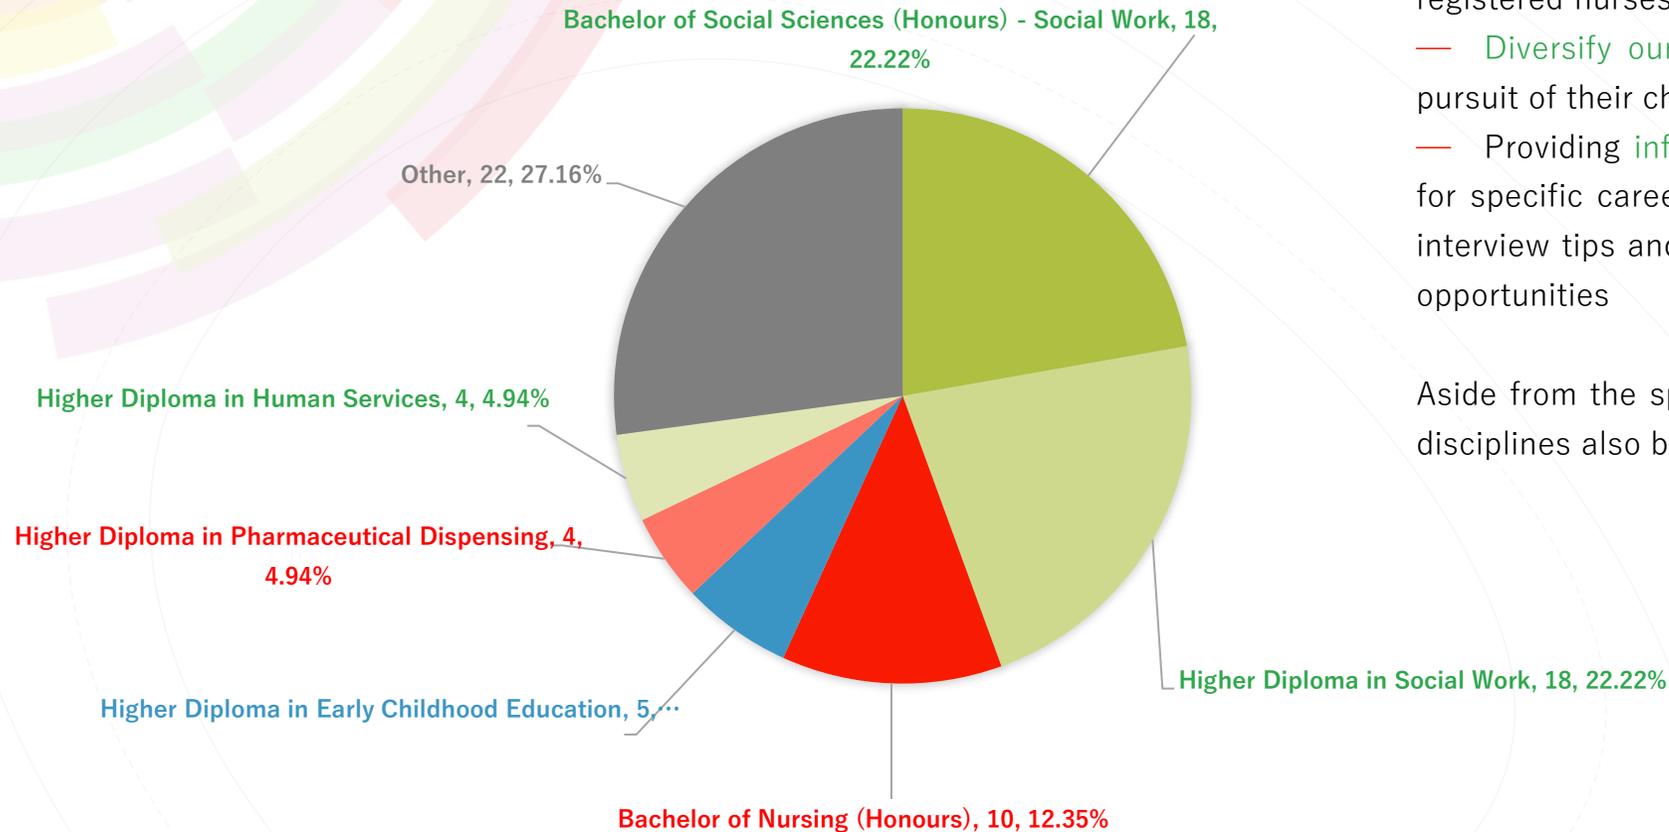

**More than half of our students (79%)** requested for Resume Review or Career Consultation: students sought assistance in the **planning stages of job search** as opposed to the application stages (i.e. application and interviews).

As there was a three months' suspension of face-to-face classes in early 2022, the number of coaching sessions dropped compared to the previous year as more students **preferred face-to-face coaching** instead of online during the suspension of physical class, especially to practice face-to-face interaction for interviews.

Students' career plans, as a product of the Build Your Career Plan, were reviewed as part of the training.

# STUDENT USE OF COACHING SERVICES

(BY PROGRAMME)

Career Centre provides **tailor-made coaching** for specialised career paths, like social workers, physiotherapists, and registered nurses.

- **Diversify our resources** for students and assist in their pursuit of their chosen career
- Providing **information** of professional or licensing bodies for specific careers paths, application deadlines, customised interview tips and referrals to institutions with job placement opportunities

Aside from the specialised career paths, students from other disciplines also book for coaching sessions (i.e., Others)

# Employment and Job Placement

kicking off the career journey

# Employment and Job Placement

Career Centre provides students with opportunities for full-time, part-time, summer jobs, internships and work placements.

In 2021/2022, Career Centre assisted **employer partners from different industries** to promote more than **270** full-time, part-time, summer jobs, internships and placement opportunities.

Students were able to access them through various channels, including mass emails, job portal, Instagram and Facebook pages. Our job portal has recorded more than **7,144 total views**, and is expecting growth with the loosening of pandemic regulations.

## for Social Sciences Students

A series of recruitment talks had been hosted in mid-June 2022. 50 Social Sciences final year students participated, which accounted for 15% of the final year students of Social Sciences, regardless if they will seek further education or employment

Five different organisations have given the recruitment talks in the series:

- Caritas Special Education
- Caritas Youth and Community Service
- Community Drug Advisory Council
- The Hong Kong Federation of Youth Groups
- The Society of Rehabilitation and Crime Prevention

(Participating organisations are listed according to alphabetical order)

Career Event Highlight:

# CareER Scholarship Programme

CareER Scholarship Programme gave recognition to students with disabilities/SENs who are in **pursuit of excellence**. This was assessed by their participation in community services, achievements in extra-curricular activities, and their willingness to challenge themselves, with a focus on preparing for their career development.

In addition to financial support, the recipients also participated in a 6-month **Mentorship Program by CareER**, comprised of career development activities such as, talks and company visits in the industries that the recipients are devoted to join after their graduation.

For the CareER Scholarship 2022, a Bachelor of Nursing year 3 student, and a HDHS year 1 student, have been awarded with the CareER Scholarship.

# Student Helper Programme

“Learn and Earn”

# Student Helper Programme (SHP)

The **Student Helper Programme** (“SHP”) is a “Learn & Earn” platform designed for students to be recruited and challenged, to lead them to **explore their career interests**. Students are chosen through a **structured and standardized interview process** and would be matched with available jobs accordingly. Students were compensated with a pay wage, certificate and recommendation letter.

In academic year 2021/2022, there was an **11.11% increase in service hours**. Student helpers were given more chance to use and enhance their skillsets.
